NOTICE OF PRIVACY PRACTICES (HIPAA) FORM

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION MAY BE USED AND DISCLOSED. PLEASE REVIEW IT CAREFULLY.

Alternative Health Care Center (AHCC) is required, by law, to maintain the privacy and confidentiality of your protected health information and to provide patients with notice of legal duties and privacy practices with respect to your protected health information.

DISCLOSURE OF YOUR HEALTH CARE INFORMATION

TREATMENT: We may disclose your health information to other health care professionals within our practice for the purpose of treatment, payment or health care operations. It may be necessary to seek consultation regarding your condition from other health care providers associated with AHCC. Substitute health care providers within AHCC may provide treatment to our patients in the event of your primary health care provider's absence due to vacation, sickness or other emergency situations.

PAYMENT: We may disclose your health information to your insurance provider for the purpose of payment or health care operations. As a courtesy to our patients, we will submit an itemized billing statement to your insurance carrier for the purpose of payment to AHCC for health care services rendered. The billing statement contains medical information such as diagnosis, date of injury or condition and codes which describe the health care services received.

WORKERS' COMPENSATION: We may disclose your health information in order to comply with State Workers' Compensation Laws.

EMERGENCIES OR DECEASED PERSONS: We may disclose your health information to notify or assist in notifying a family member, or another person responsible for your care about your medical condition or in the event of an emergency or of your death. We may disclose your health information to coroners or medical examiners.

PUBLIC HEALTH & SAFETY: As required by law, we may disclose your health information to public health authorities for purposes related to: preventing or controlling disease, injury or disability, reporting child abuse or neglect, reporting domestic violence, reporting to the FDA problems with products and reactions to medications, reporting disease or infection exposure, and preventing or lessening a serious threat to the health or safety of a particular person or to the general public.

JUDICIAL & ADMINISTRATIVE PROCEEDINGS: We may disclose your health information in administrative or judicial proceedings.

LAW ENFORCEMENT & SPECIALIZED GOVERNMENT AGENCIES: We may disclose your health information to law enforcement officials for purposes such as identifying/locating a suspect, fugitive, material witness or missing person, complying with a court order or subpoena and other law enforcement purposes, or for military, national security, prisoner and government benefits purposes.

CHANGE OF OWNERSHIP: In the event that AHCC is sold, your health information will become the property of the new owner.

YOUR HEALTH INFORMATION RIGHTS: You have the right to: request restrictions on certain uses and disclosures of your health information (however, AHCC is not required to agree to the restriction(s) that you request); inspect and copy your health information; request that AHCC amend your protected health information (however, AHCC is not required to agree to amend your protected health information. If your request to amend your health information has been denied, you will be provided with an explanation of our denial reason(s) and how you can disagree with the denial); request a paper copy of this Notice of Privacy Practices at any time upon request.

CHANGES TO THIS NOTICE OF PRIVACY PRACTICES: AHCC reserves the right to amend this Notice of Privacy Practices at any time in the future, and will make the new provisions effective for all information that it maintains. Until such amendment is made, AHCC is required by law to comply with this Notice. AHCC is required by law to maintain the privacy of your health information and to provide you with notice of its legal duties and privacy practices with respect to your health information.

I HAVE READ THE PRIVACY NOTICE AND UNDERSTAND MY RIGHTS CONTAINED IN THE NOTICE: By way of my signature, I provide AHCC with my authorization and consent to use and disclose my protected health care information as described in the Privacy Notice.

I authorize AHCC to use/disclose health information about me to (family member/friend): _____

ALTERNATIVE HEALTH CARE CENTER INFORMED CONSENT FORM

Dear Patient:

Every type of health care is associated with some risk of a potential problem. This includes Chiropractic health care. We want you to be informed about potential problems associated with Chiropractic health care before consenting to treatment. This is called informed consent.

Chiropractic adjustments are the moving of bones with the doctor's hands or with the use of a tool. Usually those movements result in a "pop" or "click" sound and/or sensation in the area being adjusted.

In this office we may use trained staff personnel to assist the doctor with portions of your consultation, physical examination, x-rays, traction, exercise instruction, or other services. Occasionally, when your doctor is unavailable, another doctor will be available to adjust you on that day.

STROKE: Stroke is the most serious potential problem associated with Chiropractic adjustments. Stroke means that a portion of the brain does not receive enough oxygen for the bloodstream. The result can be temporary or permanent dysfunction of the brain, or even death. Chiropractic adjustments have been associated with strokes that arise from the vertebral artery only. This is because the vertebral artery is actually found inside the neck vertebrae. The adjustment that is related to the vertebral artery stroke is called the "Extension-rotation thrust atlas adjustment". Fortunately, we do not perform this type of adjustment on patients. Other types of neck adjustments may also potentially be related to vertebral artery strokes, but no one is certain. The most recent studies (Journal of the CCA. Vol. 37. No. 2 June, 1993) estimate that the incident of this type of stroke is 1 per every 3,000,000 upper neck adjustments. This means that an average Chiropractor would have to be in practice for hundreds of years before he or she would statistically be associated with a single patient stroke.

SOFT TISSUE INJURY: Soft tissues primarily refer to muscles and ligaments. Muscles move bones and ligaments limit joint movement. Rarely a chiropractic adjustment, traction and/ or therapeutic exercise may damage some muscle or ligament fibers. The result is a temporary increase in pain which may necessitate extra visits for resolution, but there are no long-term effects for the patient. These problems occur so rarely that there are no available statistics to quantify their probability.

RIB FRACTURES: The ribs are found only in the thoracic spine or middle back. They extend from your back to your front chest area. Rarely a chiropractic adjustments will crack a rib bone, and this is referred to as a fracture. This occurs only in patients who have weakened bones from such things as osteoporosis. Osteoporosis can be noted on your x-rays. We adjust all patients very carefully, and especially those who have osteoporosis on their x-rays. These problems occur so rarely that there are no available statistics to quantify their probability.

SORENESS: It is common for Chiropractic adjustments, traction and or/ therapeutic exercise to result in an increase in soreness in the region being treated. This is nearly always a temporary symptom that occurs while your body is undergoing therapeutic change. It is not dangerous and may vary according to your general health.

OTHER PROBLEMS: There may be other problems or complications that can arise form Chiropractic care other than those noted above. These other problems or complications occur so rarely that it is not possible to anticipate and/or explain them all in advance of treatment.

Chiropractic is a system of health care delivery, and therefore, as with any health care delivery system, we cannot promise a cure for any symptom, disease or condition as a result of treatment in this office. We will always give you our best care, and if results are not acceptable, we will refer you to another provider who may be better able to fulfill your needs.

If you have any questions of the above, please ask your doctor. When you have full understanding, please sign and date below.
